MICHELLE HUTCHINGS-MEDINA

The Pressure Pivot: Transforming Destructive Stress to Productive Pressure

Thank you for partnering to create a seamless and high-impact experience for your audience. The following guidelines help ensure the presentation runs smoothly.

PRESENTATION FORMAT

- Slide deck provided in PowerPoint format via secure link or USB drive
- Slides run from the event laptop
- Laptop audio connected to the house sound system
- The presentation includes embedded music and timed transitions. Audio and slide functionality will be reviewed during tech check.

AUDIO

- Wireless lavalier microphone preferred
- Handheld wireless microphone available as backup
- Sound system appropriate for room size

VISUAL

- Projector and screen with HDMI input
- Slides displayed clearly and in full resolution
- Confidence monitor visible from stage, if available
- If live video projection is used, slides should remain visible during key model and teaching moments.

TECHNICAL & PRODUCTION INFORMATION

STAGE SETUP

- Clear stage space to allow movement
- Michelle does not present from behind a podium. If a podium is present for program flow, it may remain to the side.

TECHNICAL PREPARATION

- 30–60 minute tech check prior to presentation
- Visible countdown timer or clock viewable from stage
- Full run-through of slides and audio before audience entry

Michelle values collaboration with your production team and is happy to adapt based on the venue logistics to ensure the best possible audience experience.
